MAXALTO'S BRAND IDENTITY.**

CONCEPT

Detailed solutions combining products, choice of finishes and definition of the exhibition space to the last detail: from materials to graphic solutions, from backlights to boiserie, including objects and lighting.
Every aspect is conceived as part of a specific project developed under the supervision of Antonio Citterio to create scenographic solutions designed to mirror the brand's typical style.

**MAXALTO MONOBRAND, MAXALTO SHOP IN SHOP OR
MAXALTO AREA: THE PROJECT PROPOSES SOLUTIONS
FOR ALL EXHIBITION SPACES.**

FORMAT

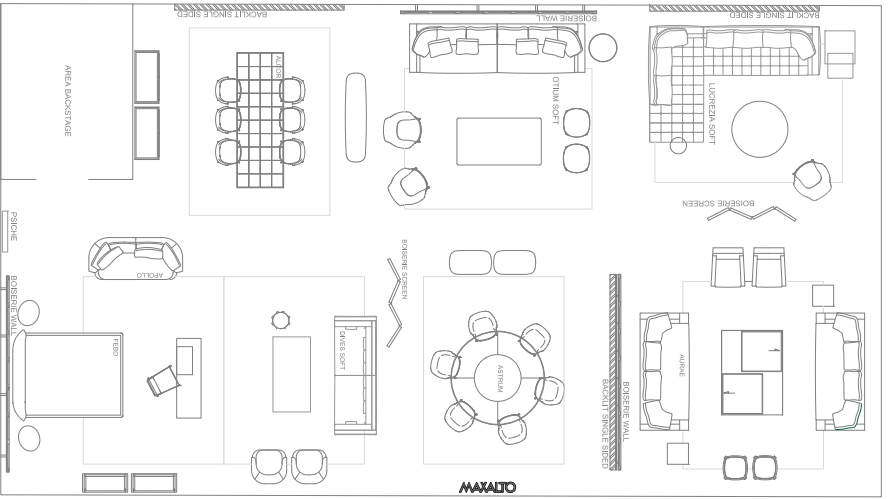

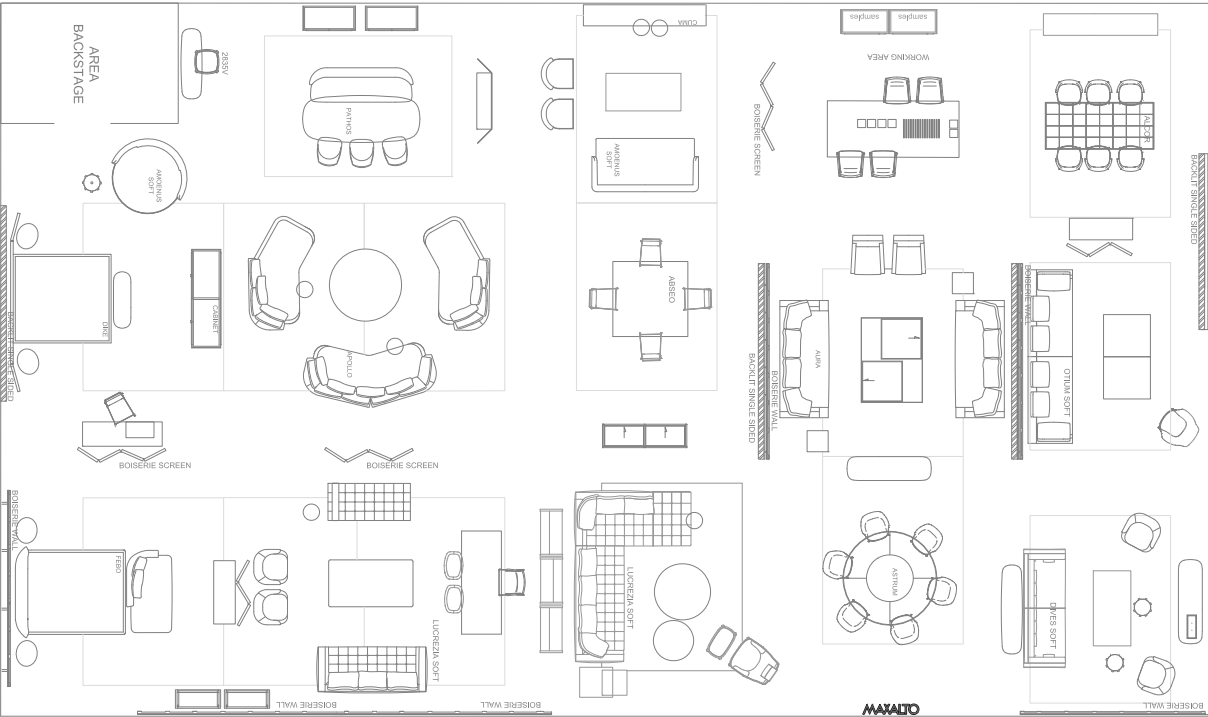

A series of coordinated proposals suggesting several combinations of Maxalto living rooms, dining rooms and bedrooms, depending on the surface area occupied. The purpose is to ensure a presentation for every exhibition space to best represent all the collection's features.

**“MAXALTO’S ROOTS ARE IN PARIS”:
ANTONIO CITTERIO ACKNOWLEDGES THE CITY
AS AN ESSENTIAL LANDMARK FOR
THE COLLECTION’S CONCEPT AND OVERALL IMAGE.**

SETTING

The project for Maxalto’s exhibition space, a crucial part of brand communication, thus evokes Parisian aesthetics in a contemporary form. Parquet floor, burnt wood boiserie, black and white painted walls, backlights with large white stucco details: every component is chosen to create the suggestive atmosphere of the interiors of traditional Parisian homes.

Perfectly aligned with the brand's typical style, the proposal links essential elements with others possessing powerful decorative value, creating continuously interplaying references to various periods and combinations of both matt and reflective materials. A discrete and punctual presence, which defines proportions and underscores the typical functions of furnishings presented.

FABRICS

This is Antonio Citterio’s concept on which the new Maxalto fabric collection is based:
a consistent set of neutral and natural tones flanked by abstract graphics, strictly in black and white.

A variety of textures, from the finest and most delicate to the most consistent and deep,
obtained from different linen, silk and cotton weaves, in order to mix and match freely with leathers,
metals and woods from the collection.
